

# Tech TY - Charity Group Heartbeat Counter™

Do you consider or strive for your Charity to be a leader in your cause? Now you can be among the first in your cause to inspire positive daily actions from your members, participants and community.

Tech TY offers the Charity Group Heartbeat Counter™ that encourages members or participants to connect to what is positive in themselves, their company, community and the World.

Counting heartbeats while doing fun positive activities makes a powerful statement for seeking new innovative ways to attract and retain donors, sponsors, members, participants and build your brand.

Heartbeats, everyone has them. On average a person's heart will beat 100,000 times a day.

Why not have your children and family count happy heartbeats while doing positive activities such as eating nutritiously, exercising, studying, working on a successful project or corporate team building volunteering.

Count double heartbeats when doing a good deed by helping another person. Children and adult positive activity, heart healthy community programs available.

Encourage others to combine activities with their heartbeats often to create awareness with positive changes. Our concept is easy to do and compatible with most charity programs and community events.

Tech TY provide a product called Group Heartbeat Counter™ that will count and display total heartbeats in support of your programs and events.

## It's easy to use. Here is how to participate:

- Provide instructions to your members or participants before an event on how to count and send total heartbeats (flyers, pocket reference cards and emails).
- Send total heartbeat count via computer
- Display real-time Charity Group Heartbeat Counter™ on your website, at recognition events or corporate locations.
- Customized counter and display your Charity group heartbeats
- Feature: Group Bookmarks to important sites such as donations
- Feature: Group Events Calendar
- Connect to your social media sites such as FACEBOOK and Twitter

This is a great way to receive ongoing positive connections to your charity in difficult environments to attract and retain loyalty! For more information please email [sandymasin@techtty.org](mailto:sandymasin@techtty.org)
